BROSE PORTFOLIO MANAGEMENT

Charges detail –

We have two schemes for charges :

1. I will charge 25% of net profit (25-75 rule) only and rest 75% will be yours and no charge on total capital, etc. Here I will not be bearing downside risk.
2. I will be paying you 15% annually with full downside risk cover. In this scheme I will take my profit share at the end of every quarter.
 - Example- If I make 20% in a quarter then I will take 16% of the profit and rest 4% will be yours. In that way your target of 15% will be completed in 4 quarters. In exception case, If I make less than 4% or loss in a quarter then I will pay you so that target of 4% per quarter can be achieved.

TERMS & CONDITIONS-

- 1. I will be completely handling your account. No intervention from your side except fund addition or fund removal. your ID and password will be shared with me for that.
- 2. Profits will only be advised to remove from account after 6 months / annually. I suggest people to not remove profits unless an emergency situation occurs. That will help your account in compounding your capital in long term.
- 3. Minimum capital(Testing capital) from which you can start is ₹1,00,000/- If you do not want to continue after testing period then the profits generated by this capital within testing period(3-6 months) will also be distributed as 25-75 rule.
- 4. You can withdraw your total capital(or as needed) in case of high emergency(Accidents/critical disease/etc.)
- 5. I will be taking my 25% share in profit at the end of every 6 months for your first year and from 2nd year onwards I will be taking profit share annually.
- 6. Locking period of capital is for 1 year. In that period if I am either making profit or not you will not be allowed to go. Sometime trader do not make money in first 10 months and in last 2 months due to certain market situations they make sufficient amt. of money. That's why you're advised to test for at least 1 year.
- 7. Downside risk is very minimum in equity and with diversification in different sector it again minimizes. Compounding also helps in managing this risk. So, no need to worry about that.
- 8. Data related to trades of every day will be sent to you by whatsapp.
- 9. I do not want to make any commitment related to returns on investment but my past record shows 4-5% per month. Which is 4-5 times what any govt. FD pays. Securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the investments will be achieved.
